Music Video & Promo's

Are you an up and coming artist, or even a well established artist looking for a creative edge with your next music video? We can create a visual masterpiece to complement your amazing vocal or instrumental talent with an exciting, fresh new music video. If you need to apply for funding or fully funded we can assist in the process to help bring your creative visions to life. From concept to final render, we work alongside you, encouraging feedback and creative assistance to make sure your music is portrayed in the manner you desire. Effects and creative elements are our forte along with precision editing and colouring. TV, promotional or online we can help with distribution avenues to make your video more successful.

Editing or Camera Work

We can offer certain services to help complete your production. If you have footage pre-shot we can add graphics, edit it and compile it onto a DVD ready for distribution. We can also come and shoot your event or project professionally and then deliver the footage only, so then you can use it as you desire. We are very flexible and can cater to any of your needs.
